- Sockets
- TCP/IP
- UDP/IP
- HTTP & SCTP
- SMTP & FTP
- XML & JSON

Software development

- Desktop applications
- Background processing

Database management

- Data processing
- System maintenance
- Automation
 - UiPath RPAs

Languages

- PHP
- MySQL & MS SQL
- C#
- Java
- JavaScript
- AJAX & JSON
- HTML5 & CSS3
- CSV & XML
- C & C++

Full Stack Developer & Integration Consultant

Remant foodcareplus, Antwerp, Belgium (2006 to Current)

- Developed a multi-portal freight forwarding quotation system using PHP, Java, MySQL, and Apache, including staff portals for creating and sending PDF quotes, carrier portals for real-time rate updates, and server-side Salesforce integrations via RESTful API.
- Built C# data scraping tools using Visual Studio to extract structured data from emails and PDFs to generate automated EDI messages for real-time logistics integration.
- Implemented automation solutions using UiPath RPAs using C# to streamline internal workflows and reduce manual processing.
- Utilized GIT for version control, enabling collaborative development and efficient code management.
- Analyzed requirements and delivered custom business solutions, including internal content management and content delivery systems.
- Performed troubleshooting, debugging, and production support across multiple web and database environments.
- Collaborated with cross-functional teams using Microsoft Teams and Outlook for project coordination.

Freelance Web Developer

various, Norman, OK, USA (2004 to 2008)

- Designed, developed, and maintained client websites using HTML, CSS, JavaScript, AJAX, and JSON, ensuring responsive layouts and efficient performance.
- Managed Linux and Windows Apache web servers, deploying websites and monitoring operations for reliability and uptime.
- Listened to clients, analyzed needs, recommended solutions, and delivered.
- Converted mockups into HTML, CSS, JavaScript, AJAX and JSON.
- Used Macromedia Flash to accomplish stylish HTML 4.01 websites.
- Monitored installation and operations to consistently meet rigorous customer requirements.

Research Assistant

University of Oklahoma, Norman, OK, USA (summer of 2003)

- Worked with principal investigators to coordinate qualitative research into X-ray fluorescence.
- Presented results of analysis to field experts at Tinker Air Force Base.
- Completed administrative and research duties per professor's request.

Lab Technician

KISS Institute For Practical Robotics, Norman, OK, USA (2002 to 2003)

- Produced robotic kits by soldering microprocessor, input sensors and actuators for plug-n-play configurations.
- Used measuring tools such as gages and voltage meters to identify conforming parts during production.
- Participated and provided assistance to various teams at robot competitions.

Student Programmer

Center for Advanced Prediction of Storms (CAPS), Norman, OK, USA (2001)

- Initiated website to interface with legacy Fortran weather prediction software.
- Used programming capabilities in Java, Perl and Fortran to create web-based user interface.

Education

Bachelor of Science in Computer Science

University of Oklahoma - Norman, OK, USA (1999 to 2004)

- Active member of ACM (Association for Computing Machinery)
- Secretary of OU Robotics Club
 - Website, email server, mailing lists
